

## Kenwood Road Bridge Replacement

The Fayette County Public Works Department is replacing the existing bridge on Kenwood Road over Morning Creek. The bridge is located 0.3 miles west of State Route 314. The Road will be closed to all thru traffic starting July 24, 2013 and the project is expected to take seven months to complete. Access to all properties will be maintained throughout the construction process. The detour length is approximately 1.8 miles.

The Kenwood Road Bridge is one of the lowest-rated bridges in Fayette County and is in need of replacement due to insufficient shear capacity of the concrete superstructure and advanced decay in several timber piles. The new bridge will be a concrete structure than meets current safety, environmental and structural capacity standards.

The work is being done by a Contractor to Fayette County and funded through the County's Transportation SPLOST program.

Please contact the Public Works Department at 770-320-6010 or [publicworks@fayettecountyga.gov](mailto:publicworks@fayettecountyga.gov) if you have any questions or concerns about this project.
